26. Mahagenco reserves the right to recover all the amounts of penalties & charges or any other recovery from security deposit.
27. Liability and Insurance:
   The bidder shall be liable and shall indemnify MSPGCL, its employees and any third party for all losses or damages suffered by them due to any act or negligence on the part of bidder or its employees or agents as the case may be. The bidder shall obtain and maintain such insurance policy covering the equipment, employees and such other material whatsoever. The bidder shall also obtain insurance policies as required by law.
28. Duties of Supervisor or Contractors representatives: The supervisors should be available in every shift. Any communication in writing shall be given to the site supervisor or local representatives of contractor any time. If the supervisor refuses to acknowledge the communication the same shall be recorded by any engineer of Mahagenco. All such communications shall be deemed to be made with the contractor and the contractor shall take immediate actions as per the communication.
29. The register/record should be maintained by bidder for the day to day fly ash lifted at Paras TPS with signing by the representative of the company, which will be subjected as assurance of the fry ash lifted. This register/record should be submitted to Paras TPS on 1st date of every next month.
30. TERMS & CONDITIONS FOR FIRE & SAFETY:

1) Paras Thermal Power Station is a prohibited area. Contractor will have to follow rules laid down by MAHAGENCO. Contractor can get his difficulties cleared, if any from security officer after receiving this firm order. For obtaining the entry gate passes for the workers/staff, contractor will have to submit it the passport size photograph and the character certificate of worker from the police station authority of the area he resides.

2) A) Safety precautions are to be observed by the contractors, labors and staff. The policy of the management is “ZERO ACCIDENT” in the plant. The contractor shall provide required safety appliances/equipment’s to their workers like safety shoes, helmet, goggles, safety belt, nose mask, hand gloves etc. Depending upon the working condition and nature of job and work in hand. The appliances, equipment shall be arrange by you at your cost. Contractor should instruct its supervisor and labors to follow safe working practices. If any unsafe condition is noticed by you or your labor it should be immediately brought to the notice of the MAHAGENCO's supervisor/Engineer at site for corrective action.

B) All precautions are already taken to provide safe working conditions in the plant as per factories Act 1948 & Maharashtra Factories Rules 1963.

C) Contractor should deploy competent persons/workers for the particular jobs: submit the list of his workers deployed for the job.

D1) If any accident occurs to the contractor's laborer due to unsafe working practice or non use of PPE, the contractor will be held responsible for it. Any claim/penalty/compensation in this respect will be the entire contractor's responsibilities. All the financial and legal complication arising out of the accident fatal or nonfatal in line with statutory rules & regulations prevailing during the period of the contract lies on the contractor and they shall assist MAHAGENCO to comply all such statutory provisions if the need arises.

Dii) If any accident to the contractor laborer, it is the responsibility of the contractor for shifting of the injured persons to hospital and to intimate the occurrence immediately to the concerned MAHAGENCO's supervisor/officer.

Diii) Contractor workers shall be confirmed to the working spot only and shall not be found wandering in unauthorized area.

E) Safety of your workers and staff is your sole responsibilities. You shall undertake to pay compensation to your workers/staff in case they meet with an accident and under no circumstance, and in no case MAHAGENCO will be responsible to pay any compensation as per workman compensation act.

F) You have to ensure that the manpower to be engaged by you for the nature of works allotted to them are well trained and experienced for carry in out that nature of work and have a couplet sense of knowledge of risks involved at the place of working and the safety equipment/devise/safe works procedures to be used for no accident during the working.

G) The contractor has to deploy competent person/workers well trained/versed with the plant system, equipment of particular job assigned to them. They are to be informed about safe working practices & use of required personal protective equipment as per the job to be carried out. The contractor supervisor has to remain at work place & ensure safe work practice.

H) If any of our officer/supervisor find that the agency is not following the safe working practice, safety rules & regulations including use of personal protective equipment at site, he is authorized to stop the work immediately the order may be terminated or you may be declared debarred for the further contract.

3) Worker shall be confined to the working spot only and shall not be found wondering in unauthorized area.
4) No compensation / claims for the idle labourers / staff for any reason will be entertained by the MAHAGENCO.

5) Engagement of Labourers: Contractor has to employ only medically fit, healthy & capable male labours in sufficient strength to carry out all the works specified in the scope of work to the satisfaction of MAHAGENCO’s authority/ representative. Female labourers will not be allowed to work.

6) Character of labours employed should be good. If they will be found committing any theft, misconduct or mischief in the plant they must be immediately discontinued from the services.

Loss incurred on this account shall be recovered from the contractor’s Bank guarantee.

7) Presence At Site: After the awards of the contract, contractor will always be available at site to receive the instructions from time to time. In his absence he will post at site his authorized representative it will be assumed that the instruction are conveyed to the contractor.

The contractor has to depute his authorized supervisors/representatives for overall supervision. The contractor/supervisor/authorized representative will follow at I instruction and orders issued by the undersigned.

8) Responsibility of contractor: It will be contractor responsibility to maintain discipline of his staff and any hindrance to the running of power station or MAHAGENCO’s staff will be viewed seriously and liable for termination of contract by the MAHAGENCO without entertaining any claim from the contractor in this regard. If contractor’s labour/staff cause any damage to the MAHAGENCO’s property the contractor will be liable for the cost of damage and the cost incurred for repairs/replacement will be recovered from the contractor’s bank guarantee/security deposit as far as possible. The contractor will also be liable for resultant loss/damage to the MAHAGENCO’s equipment/plant, being out of service due to damages by contractor’s men or vehicle. The contractor will follow all safety regulations strictly and ensured against any fire hazards while working.
